

Three

Strawberry Alarm Clock

Oh, I'm in trouble
Can't you see me on the double?
You know you better take three in the morning and three at night
I'm gonna give you a little lovin'
Make you feel all right
Oh, I feel lonely
What's it gonna be, my one and only?
You know it's gotta be me in the morning and me at night
I'm gonna give you a little lovin'
Make you feel all right
Three in the morning and three at night
I'm gonna give you a little lovin'
Make you feel all right
Come on, little baby, let me hold you tight
You know a little more will make you feel all right
Three in the morning and three at night
I'm gonna give you a little lovin'
Make you feel all right
Come on, little baby, let me hold you tight
You know a little more will make you feel all right
Oh, the sun is rising
Don't let it waste away, the day is dying
And then you'll have to take three in the morning and three at night
You're gonna get a little lovin'
Make you feel all right
