

And You Need Me

Strawbs

I wish I knew you were to stay
I know too well why I feel this way
It's just that I can plainly see
That I need you and you need me.

I'll stay with you while the days go past
Live for today, try and forget the past
My friends all say and I agree
That I need you and you need me.

I'd like to say it isn't true
But all of me must lie with you.
Sometimes I say how can it be
That I need you and you need me.

Do you recall what I said before
I meant it then, now I mean it more
I'd like somehow to make you see
That I need you and you need me.

I'd like somehow to make you see
That I need you and you need me.
