

# Don't Try To Change Me

Strawbs

You brought a new kind of sound into my life  
You brought love every day  
You brought a new kind of sound into my life  
And I threw it away.

You gave my eyes a new sight they'd never had before  
You brought beauty every day  
You gave my eyes a new sight they'd never had before  
And I threw it away.

The song that I sing  
Is the music I bring  
Don't try to change me  
I'm doing the best I can  
Don't try to change me  
I'm happy the way I am.

You gave the mornings a light they'd never seen before  
You brought love every day  
You gave my mornings a light I'd never seen before  
And I threw it away.

The sound they appeared to hear  
Was the sound that didn't disappear  
But stayed forever  
You are love, you need love  
You know that much better than I do.

You brought a new kind of sound into my life  
You brought music every day  
You brought a new kind of sound into my life  
And I threw it away.
