

# I Don't Want To Talk About It

Strawbs

There's a place that I know  
There's a place I want to be  
There's a girl that I love  
She is waiting there for me

There's a time that we share  
When the sun is going down  
With the world to ourselves  
When there's no-one else around.

I don't, I don't  
(You lit the fire)  
I don't want to talk about it  
(and let it burn)  
I don't, I don't  
(You've reached the point)  
I don't want to talk about it  
(of no return)  
Actions speak much louder than words  
Let's do it.

There's a kid on the streets  
Who will never know his name  
There's a woman in black  
Who should hang her head in shame.

Every now and then  
In the dead of night  
You call on me  
To make it right.

There's a voice in the night  
That is calling out to me  
There's a fire that will burn  
In your eternal memory.
