

## Lemon Pie

## Strawbs

The sharper is the berry  
The sweeter is the wine  
The longer we are parted  
The sooner you are mine  
You are mine.

Lovely lemon lady  
You make me feel so shy  
But lovely lemon lady  
I love your lemon pie.

The stronger my deception  
The lesser grow my lies  
The shallower the whole truth  
The deeper are my eyes  
Are my eyes.

Bitter lemon lady smile  
I'll see you in a little while  
Lemon lady sweet and sour  
You have me in your lemon power  
My lemon pie.

The simpler the solution  
The more that it will mean  
The greater the resistance  
The further I will lean  
I will lean.
