

Two Separate People

Strawbs

When two separate people
Go two separate ways
There's too many hours
In the long and lonely days
When two separate people
Make two separate plans
There's two points of view
The woman's, the man's.

We're two separate people
Who drifted apart
Two separate people
Who made a false start
Two separate people
Beginning again
Two separate people
In need of a friend.

When two separate people
Lead two separate lives
There's too many kids
And not enough wives.
