

## Rising Sun

### Stray from the Path

We are the light that guides you home  
The light is always darkest before the dawn

This is the rising sun  
It hangs from up above  
Blinding the children from the darkneses they've come to  
love  
This is the rising sun  
Forget the things you loved  
Find the reason and the will to rise above

This is who we are  
Screaming out  
This is the year of the rising sun

We are the light that guides you home
