

Rattle and Roll

Street Dogs

Are you ready to roll, are you ready to rattle
We're out on the town we're gearing for battle
We're owning the pub from night until morning
The gang has arrived we're sending a warning

Hatched at st. maggies raised up on the hill
Hung out on sydney with my cousin bill
Say this before I defend her again
Oh Dorchester is my hometown

We got doctors and coppers lawyers and jakes
Men from the old sod with fortunes to make
They will shake you and break you but never
Forsake you dorchester is their hometown

A toast to the lot a toast for the park
Do you remember tuohey hanging out past dark
Kedso, Bivitis, Maffy too
This anthem I sing for you

A toast to the lot a toast for the park
Do you remember cozzies hanging out past dark
Kedso, Bivitis, Maffy too
This anthem I sing for you

Traveled a long way moved far away
In my heart and my spirit you always stay
Take the kid from the dot you cant pull out the rat
On Adams corner I swear to that
