

## Unions and the Law

Street Dogs

Like Bob said the times are a changing  
Unfortunately for us bossman's rearranging  
Doesn't care about your wife and kids  
But only the gold that is his  
Won't hear eleventh hour underbids  
Or part with the assets that he thinks are his  
Only knows how to downsize  
He'll see an increase by losing you

Not even aware that his moral code has died

Unions and the law... What's wrong with being treated fairly  
Unions and the law... We've got to defend ourselves somehow

Society's a much faster place now  
Seems like protest lost out somehow  
I once heard a composer sing  
I can't stand up for falling down  
Got to rise up and be accounted for  
Maybe that sentiment will arrive  
Back in town but only time  
Itself will reveal this concept

In ending this rant we'll stay idealistic

[Chorus]

Unions and the law... What's wrong with being treated fairly  
Unions and the law... We've got to defend ourselves somehow  
Unions and the law... They got to come back stronger today  
Unions and the law... We've got to defend ourselves somehow

Like Bob said the times are a changing  
Unfortunately for us bossman's rearranging  
Doesn't care about your wife and kids  
But only the gold that is his

[Chorus]
