

## Yesterday

### Street Dogs

You can't have a better today if you don't remember yesterday  
let me tell you the story...

We had no time, we had to leave, we didn't wanna go  
we cut our ties, lamenting how the story always goes  
we can't return, that was a time so very long ago  
but it won't be lost, those were the best times  
that we would ever know

Now they've all gone away.. everybody's gone away  
Now they've all gone away.. everybody's gone away  
everybody's gone away that's why we called it yesterday

Behind these eyes, the movie always running  
through my mind, of fatal lives, yet many  
more than that came through alright  
so you fall in line some day we all must give  
up the fight, it's not your demise, i know  
you won't give up deep down inside

Now they've all gone away.. everybody's gone away  
Now they've all gone away.. everybody's gone away  
everybody's gone away that's why we called it yesterday

so you can't tie me down, to the past, I will reach  
for the sky, I will learn how to laugh, at the  
things that we never knew, the troubles we had  
and i'll die with my innocence and freedom intact

Now they've all gone away.. everybody's gone away  
Now they've all gone away.. everybody's gone away  
Now they've all gone away.. everybody's gone away  
that's why we called it yesterday  
that's why we called it yesterday
