## **Being At War With Each Other**

## **Barbra Streisand**

Everyone comes from One father one mother So why do we complicate Our lives so much By being at war with each other Mmm...maybe I'm crazy But I don't understand it Why do we seem to vote To dig more holes It's such a waste of a planet There must be a reason That I can't see Maybe somebody else now Knows better than me All I know is Everyone else is A sister or a brother So we've got to look around Again and stop Being at war with each other Being at war with each other Oh. . . Maybe I'm crazy But I don't No, I don't understand it (There must be a reason) There must be a reason (There must be a reason) There must be a reason That I can't see Somebody else must be Better than me AII I know is Everyone else is A sister or brothers So we've got to look around Again and stop Being at war with each other Being at war with each other...
