I Never Had It So Good

Barbra Streisand

I never had much money I never won a race My jokes don't end that funny And I had door slammed on my face But I think you've charmed me I always hoped that someone would I never had a love like this before No...I never had it so good I'm not the type that's trusted Always tripping over logs And often I've been busted And chased by friendly dogs But I think you've charmed me I always hoped that someone would I never had a love like this before No...I never had it so good Hmm...Hmm...Hmm... But I think you've charmed me I always hoped that someone would I never had a love like this before No...I never had it so good
