

Night of My Life

Barbra Streisand

Closer
Sight and the sound
Roller coaster
That merry-go-round
We can't wait for that show to start
That fire, that feeling, your heartbeat
We have what others can't tear apart
Taking over
I fight to the end for the night of my life
And nothing can get in my way
And love is a river
And river is ocean
Take of your pleasure
And all that you cry for
I go to the wall for the night of my life
I play every game that you play
I shout out my struggles and
Send out a message to you
No early warning
I'm under the radar
You're closer
Sight and the sound
Roller coaster
And baby no one would go that far
To close all those doors behind us
And to the top of the world we climb
Taking over
I fight to the end for the night of my life
And nothing will get in my way
I shout out my struggles and...
Send out a message to you
No early warning
I'm under the radar
Calling love (Calling love)
Take me to the love (Calling love)
Take me to the morning (Calling love)
I fight to the end for the night of my life
And nothing can stand in my way
And love has a color
And colors are many
Blue is for lonely
And red is for danger
I go for the wall for the night of my life
I play every game that you play
I shout out my struggles and...
Send out a message to you
No early warning
I'm under the radar
Calling love (Calling love)
Take me to the love (Calling love)
Ain't no early warning (Calling love)
Tell me what I do for you (Calling love)
Calling love (Calling love)
Get me to the love (Calling love)
Tell me that you want it (Calling Love)
Tell me that you want it
You're closer

Sight and the sound
