

# Night of My Life

Barbra Streisand

Closer  
Sight and the sound  
Roller coaster  
That merry-go-round  
We can't wait for that show to start  
That fire, that feeling, your heartbeat  
We have what others can't tear apart  
Taking over  
I fight to the end for the night of my life  
And nothing can get in my way  
And love is a river  
And river is ocean  
Take of your pleasure  
And all that you cry for  
I go to the wall for the night of my life  
I play every game that you play  
I shout out my struggles and  
Send out a message to you  
No early warning  
I'm under the radar  
You're closer  
Sight and the sound  
Roller coaster  
And baby no one would go that far  
To close all those doors behind us  
And to the top of the world we climb  
Taking over  
I fight to the end for the night of my life  
And nothing will get in my way  
I shout out my struggles and...  
Send out a message to you  
No early warning  
I'm under the radar  
Calling love (Calling love)  
Take me to the love (Calling love)  
Take me to the morning (Calling love)  
I fight to the end for the night of my life  
And nothing can stand in my way  
And love has a color  
And colors are many  
Blue is for lonely  
And red is for danger  
I go for the wall for the night of my life  
I play every game that you play  
I shout out my struggles and...  
Send out a message to you  
No early warning  
I'm under the radar  
Calling love (Calling love)  
Take me to the love (Calling love)  
Ain't no early warning (Calling love)  
Tell me what I do for you (Calling love)  
Calling love (Calling love)  
Get me to the love (Calling love)  
Tell me that you want it (Calling Love)  
Tell me that you want it  
You're closer
