

The Love Inside

Barbra Streisand

So the word is goodbye
Makes no difference how the tears are cried
It's over
And my heart lives alone
I can make believe you need me
When it's over
And we can't take it home
The fire that was burning
When all around was turning
And we were cruising for the ride
Gotta give a little of the love inside
Not to take it all and watch me fall
I got me lovin' you
I had you lovin' me
And we both played along
Love is easy on the young
Life was together
As the world fades away into yesterday
I'm losing you , forever
I'm just an empty shell
With nothing for tomorrow
I'm here to face the sorrow
The dream we sailed was far and wide
Gotta give a little of the love inside
Not to take apart this breaking heart
I got me lovin' you
I had you lovin' me
So the word is goodbye
Makes no difference how the tears are cried
It's over
And my heart lives alone
I can make believe you need me
When it's over
And we can't take it home
The fire that was burning
