

# What Were We Thinking Of

Barbra Streisand

Where did we go wrong  
Is it really over  
Where does my heart belong  
If it's not with you  
We held on to our pride  
When we left each other  
But what good is pride tonight  
When we're all alone  
Why did we give up on us so fast  
Isn't love supposed to last forever  
Oh, what were we thinking of  
Looking for something better  
Reaching for more than love  
What were we thinking of  
Too late we both discovered  
We're lost without each other  
What were we thinking of  
Tonight I stay awake  
Wanting just to call you  
Knowing my heart would break  
If you were not home  
So, I never call  
And you will never answer  
You know the saddest part of all  
Is I know you're there  
Why do we run from  
The arms of love  
When we really need each other  
More than ever...  
Oh, what were we thinking of  
Looking for something better  
Reaching for more than love  
What were we thinking of  
Too late we both discovered  
We're lost without each other  
What were we thinking of  
Oh, both of us thought  
We'd find true love with another  
Why were we so blind  
It was right here all the time  
What were we thinking of  
Looking for something better  
Reaching for more than love  
What were we thinking of  
Too late we both discovered  
We're lost without each other  
What were we thinking of  
What were we thinking of  
Looking for something better  
Reaching for more than love  
What were we thinking of  
Too late we both discovered  
We're lost without each other  
What were we thinking of  
What were we thinking of  
Yeah! What were we thinking of  
What were we thinking of...
