

What Were We Thinking Of

Barbra Streisand

Where did we go wrong
Is it really over
Where does my heart belong
If it's not with you
We held on to our pride
When we left each other
But what good is pride tonight
When we're all alone
Why did we give up on us so fast
Isn't love supposed to last forever
Oh, what were we thinking of
Looking for something better
Reaching for more than love
What were we thinking of
Too late we both discovered
We're lost without each other
What were we thinking of
Tonight I stay awake
Wanting just to call you
Knowing my heart would break
If you were not home
So, I never call
And you will never answer
You know the saddest part of all
Is I know you're there
Why do we run from
The arms of love
When we really need each other
More than ever...
Oh, what were we thinking of
Looking for something better
Reaching for more than love
What were we thinking of
Too late we both discovered
We're lost without each other
What were we thinking of
Oh, both of us thought
We'd find true love with another
Why were we so blind
It was right here all the time
What were we thinking of
Looking for something better
Reaching for more than love
What were we thinking of
Too late we both discovered
We're lost without each other
What were we thinking of
What were we thinking of
Looking for something better
Reaching for more than love
What were we thinking of
Too late we both discovered
We're lost without each other
What were we thinking of
What were we thinking of
Yeah! What were we thinking of
What were we thinking of...
