

## Earthbound

### Strike Anywhere

Earthbound government's open sores  
Death and killing are in control while  
A leader is smiling no thoughts for the people  
Hearts tied to the floor  
We know we never wanted this  
We're taught there's nothing more  
And I can't tell you it's not working  
For the prizes they promise that offer  
No ending to the power abusing  
Our trust in this system becomes hatred  
So. Come out and listen? No.  
We can't live through this frustration  
In this world we must say, "no!"  
And we're taught nothing more  
In the eyes in the heart in the mind freedom starts -  
With our youth still in our hands  
And an earthquake in our hearts
