

# All I Want

Striker

Before she came to me  
Life was a mystery  
Walking down another lonely road  
I was hypnotized  
Caught up in my own lies  
And got lost along the way

I was waiting for someone  
To come wash these sins away  
I was waiting for someone  
Someone like you

And I had to tell myself  
No man is made of stone  
And no one wants to die alone

But when you're waiting for someone else  
It can be so hard to remember

She's all I want  
She's everything I need  
Yeah she's got it all  
It only gets better  
As time passes by  
Yeah she's got it all  
She's got it all

I had to turn away  
And get a new perspective  
Cause everything I need  
Was staring back at me

But when you're waiting for someone else  
It can be so hard to remember

She's all I want  
She's everything I need  
Yeah she's got it all  
It only gets better  
As time passes by  
Yeah she's got it all

If you'll take me  
You'll never be alone again  
Until the end  
We belong  
Our love is strong  
My friend  
Until the end

Before she came to me  
Life was a mystery  
Walking down another lonely road

But when you're waiting for someone else  
It can be so hard to remember

She's all I want  
She's everything I need  
Yeah she's got it all  
It only gets better  
As time passes by  
Yeah she's got it all  
She's got it all
