

# Believe in Me

Striker

Listen my people  
To these words I have to say  
A new time is upon us  
There are lives that must be saved

Sickness and evil  
A plague through out our land  
Brings chaos and hatred  
We all must take a stand

We see the times are changing  
We are reborn  
Our trust has been shattered into pieces  
Our minds are tom

Sick and tired  
Of the ignorance of fools  
Break your shackles  
Disobey the rules

Take a minute to disbelieve  
What they're telling you and me  
You have the power  
Take your life and

Break away  
Listen to your soul and cease the day  
Break away  
Believe in me there is another way

Liars and cheaters  
You can see them everywhere  
Nothing to check the balance  
No one even cares

The rich get richer  
The rest of us will die  
Our worlds a tragic story  
How can we survive
