

## Fire

Striker

There's no turning back  
we're here to attack  
running hot  
with the pedal to the metal

Wheels of steel - speed unreal  
Yeah yeah - Turbo shock

Race to the end  
life on a razor's edge  
ride on the wind  
ready to crash and burn

Fire - Burning in the night  
fire - Burning in the night

Out of control , rock and roll  
danger zone  
ready to explode

Kick your face  
into outer space  
feel the roar  
of my metal scream

Burning in the night  
Burning in the night

No ! Yeah !
