## Fire

## Striker

There's no tourning back we're here to attack running hot with the pedal to the metal

Wheels of steel - speed unreal Yeah yeah - Turbo shock

Race to the end life on a razor's edge ride on the wind ready to crash and burn

Fire - Burning in the night fire -Burning in the night

Out of control , rock and roll danger zone ready to explode

Kick your face
into outer space
feel the roar
of my metal scream

Burning in the night Burning in the night

No ! Yeah !
