Full Speed or No Speed

I see the fire I see the flames Setting the world ablaze I feel the speed I feel the rush Grinding your bones to the dust

Something comes alive Hang on for the ride

Full speed or no speed Live one day at a time Full speed or no speed Living life ain't a crime

Loud like thunder Fast as light Racing on through the night Full metal fury Speed rocket strike Full speed out of sight

Something comes alive Hang on for you life

Full speed or no speed Live one day at a time Full speed or no speed Living life ain't a crime

Life in the fast lane Get out of my way I don't care what they say I live for today

Full speed or no speed Live one day at a time Full speed or no speed Living life ain't a crime

Striker
