

# Hang On

Striker

You've never been so low before  
No you can't figure it out  
The world is yours open the door  
There is more than meets the eye

Hang on  
To the edge of your life  
(To the edge of your life)

Stay strong  
You don't know what you've got until it's gone  
(What you've got until it's gone)

Taking the chance to live your life  
With open arms  
Let all your wildest dreams come true  
It's up to you

Hang on  
To the edge of your life  
(To the edge of your life)

Stay strong  
You don't know what you've got until it's gone  
(What you've got until it's gone)

Life is ever changing  
You can travel any path you choose  
Always rearranging  
Life goes on and on and on and on

Hang on  
To the edge of your life  
Hang on  
To the edge of your life

Hang on  
To the edge of your life  
(To the edge of your life)

Stay strong  
You don't know what you've got until it's gone  
(What you've got until it's gone)
