

# Lethal Force

Striker

Forget the future  
The blood spills today  
Weapons of war  
Reduce us to clay

The clans fight in the night  
Stepping into the light  
The fire is raging

We're all shooting to kill  
Do it just for the thrill  
No one's worth saving

Oh  
Lethal Force  
Oh  
Lethal Force

Countries destroyed  
Reduced to ashes in the night  
The winds of war are calling you  
Beware

The clans fight in the night  
Stepping into the light  
The fire is raging

We're all shooting to kill  
Do it just for the thrill  
No one's worth saving

Oh  
Lethal Force  
Oh  
Lethal Force
