

Lord Of The Sword

Striker

Out in the night , haunting the streets
sign of terror - There is no retreat
through the back roads madness unfolds
evil takes control

Run for your life
fear holds your tight
you better beware
demons on the hunt tonight

He's out for blood - stay out of sight
lord of the sword
cuts through the night

My blade is lethal
i strike with power
i live in the darkness
this is your final hour

Heart of steel - Out to destroy
my thirst for blood
is never satisfied

Run for your life
fear holds your tight
you better beware
demons on the hunt tonight

He's out for blood - stay out of sight
lord of the sword
cuts through the night
