## Lord Of The Sword

Out in the night , haunting the streets sign of terror - There is no retreat through the back roads madness unfolds evil takes control

Run for your life fear holds your tight you better beware demons on the hunt tonight

He's out for blood - stay out of sight lord of the sword cuts through the night

My blade is lethal i strike with power i live in the darkness this is your final hour

Heart of steel - Out to destroy my thirst for blood is never satisfied

Run for your life fear holds your tight you better beware demons on the hunt tonight

He's out for blood - stay out of sight lord of the sword cuts through the night Striker
