

# Underground

Striker

Night after night  
The passion burning deep in every soul  
I can feel it  
Night after night  
We keep coming back  
Together we are strong  
I need it

Believe in yourself  
And nobody else  
We're holding the crown  
Crushed by the sound  
Believe in the underground

We'll win the fight  
We're fighting and no one can keep us down  
Feel the power  
We'll take control  
Fight and conquer all those who appose  
It's the only way

Believe in yourself  
And nobody else  
We're holding the crown  
Crushed by the sound  
Believe in the underground

Night after night  
The passion burning deep in every soul  
I can feel it  
Night after night  
We keep coming back  
Together we are strong  
I need it

Believe in yourself  
And nobody else  
We're holding the crown  
Crushed by the sound  
Believe in the underground
