

## Anywhere

Stroke 9

Everyday something new comes my way  
And helps me get through the past  
Anyway, I can't say how long I've been away  
But I feel at home at last  
I'm aware there's something around me  
Saving me, protecting me  
That won't let me crash  
Everyday something new comes my way  
And I feel at home at last

Anywhere is everywhere and I don't care  
As long as I can feel this is real I'm not scared to let you in  
Everywhere is far from there and I don't care as long as this is real  
When you're gone then I won't feel this good again.

Anytime I can't say what's on my mind  
And remember how good things have been  
I relax and reattach to the past  
And we feel like one again  
It erases all the care in our way  
And we feel like one again

Feel this good again
