

Don't Worry

Stroke 9

Well it's hard to say what's on someone's mind
If a woman looks mean she might really be kind
She's smart, well dressed
Smells good, likes sex
But you can't get over her, can't get past her
Can't get around your last disaster
Let it go while your pride's intact
Don't vow to get her back

Look there, you wonder where
You blew that one and now you care
But when you walk around
You think you see her everywhere

Don't worry you'll find her
It's just a little reminder (2x)

Just when you think that you're over something
One little sight it rushes like lightning
Then it's on, then it's off
Then you're sad, then you're not

But you wanna go for her, want to impress her
But can't get past her predecessor
You workin' through it, then ya know
The radio plays a song and brings her back

Look there she's everywhere
You can't escape, it's just not fair
And you still walk around
With that stupid blinding stare

Don't worry you'll find her
It's just a little reminder
Don't worry you'll find her
You're right behind her

You think you know what life's about
You're lucky now, you're lucky now
You think you know what love's about
You'll work it out
