

# Take It or Leave It

The Strokes

Leave me alone  
I'm in control  
I'm in control  
And girls lie too much  
And boys act too tough  
Enough is enough

Well, on the minds  
Of other men  
I know she was...

I said, "Just take it or leave it  
And take it or leave it  
And take it or leave it  
And take it or leave it  
Oh, just take it or leave it  
And take it or leave it  
Oh, take it"

That's right

Oh, he's gonna let you down  
He's gonna let you down  
He's gonna let you down  
He's gonna break your back for a chance  
He's gonna steal your friends if he can  
He's gonna win someday

I fell off the track, now  
I can't go back  
I'm not like that

Boys lie too much  
Girls act too tough  
Enough is enough

Well on the minds  
Of other girls  
I know he was...

I said, "Just take it or leave it  
And take it or leave it  
And take it or leave it  
And take it or leave it  
Oh, just take it or leave it  
And take it or leave it  
Oh, take it"

That's right

Oh, he's gonna let you down  
He's gonna let you down  
He's gonna let you down  
He's gonna break your back for a chance  
He's gonna steal your friends if he can  
He's gonna win someday

Oh, he will...
