

You Talk Way Too Much

The Strokes

1. Now we're out of time

I said it's my fault, it's my fault

Can't make good decisions

It wont stop, I can't stop

*: Give me some time, I just need a little time

Give me some time, I just need a little time

Give me some time, I just need a little time

Give me some time, I just need a little time

R: You talk way too much

You talk way too much

It's only the end

It's only the end

2. We dont get the news

He says why not

Why not

Forget what you heard

Cause it wont stop

It wont stop

*: Give 'em some time they just need a little time

Give 'em some time they just need a little time

Give 'em some time they just need a little time

Give 'em some time they just need a little time

R: You talk way too much

You talk way too much

It's only the end

It's only the end as you know it

You're not supposed to say that

You taught me too much

Is this how it ends?

Is this how it ends?
