A new life to live, a new heart to give No sorrow no pain, new bodies to gain Peace and harmony found, love will be all around

Come with me tonight
Come to the everlife
We will see new life in the sky

You don't have to lose, you just have to choose Just call on His name, you won't be the same Lift your hearts up today
Put your troubles away

Come with me tonight
Come to the everlife
We will see new life in the sky

New life so endless and free Just lift your hearts up, you'll see

Peace and harmony found Love will be all around Lift your hearts up today Put your troubles away

Come with me tonight
Come to the everlife
We will see new life in the sky
