## **Everything**

To fear You, to love You, to seek You To be near You, to be of You, be in You To know You, show You, need You To learn You, speak You, read You To love You, show you, need You To love You, speak you, read You

To see You, to hear You, to meet You To drink You, to taste You, to eat You To know You, show You, need You To learn You, speak You, read You To know You, show You, need You To learn You, speak You, read You

You're my everything - (everything) My bridge across the water - (my living spring) The melody and the song I'll - (forever sing) Don't You know that you're my everything You're my everything

To touch You, to hold You, to feel You To take You, accept You, reveal You To know You, show You, need You To learn You, speak You, read You To know You, show You, need You To learn You, speak You, read You
