

## Saved by Love

Stryper

We've been adrift, upon the oceans  
Trying to sift through our emotions  
There's no land in sight as we sail through the night  
Looking for something to see - suddenly...

We're Saved By Love  
We're Saved By Love

We can't forget, what brought us this far  
It's heaven sent, beyond the big star  
Just when we're feeling that we're going down  
We can't go on anymore - we're restored

We're Saved By Love  
We're Saved By Love

We can't go on if we feel there's no wrong  
Hurting the ones that we need  
When brothers and sisters are moving along  
Reaping and sowing the seed  
Oh the one thing that we have that lights up the dark  
And shows us what we need to see - look above
