

Never On The Radio

Stuck in the Sound

Well I'm so tired,
How long?
I've been around for trouble,
A new kind of Liar,
A liar, a liar, a liar....
Try again and next time.
Make me wild

Or you'll never
be on the radio!
Liar liar
Liar liar!

Transistors on fire
Come on!
You know you can't deny this.
And you come
A liar, a liar
A liar, liar....
try and the next time
Make me wild

Or you'll never
be on the radio
Liar liar
On the radio
Liar liar
On the radio
On the radio!

Please believe me it never ends
You 've got a lovely machine!
I know you watch behind the waves
you're just a whistle unadvised
You're just a,
My favorite song
You're just a,
My favorite song...

Never, never, never, never!
Liar, liar,
On the radio
Liar liar,
On the radio...
