

# Hatebreed

Stuck Mojo

I lived beyond my fears  
Until my years  
Have withered me, delivered me  
Divinity and you'll  
Never catch me on my knees  
Ride upon my horse so mighty  
Hated both the black and white  
Always constant never falter  
Rage like fire move like water

(This hate makes me a better man  
My hate helps me take a stand)  
Strong inside, clear of purpose  
Heart of stone, never nervous

Never hidden never ran  
So hate me with all you can  
Hate Breed (I've fallen in with the hate breed)

You wanna feel the rush until the crush  
has beat you down spins you around  
The hate you found and your rage  
will never let you down  
Strike them down with all your fury  
Judged with hate the acting jury  
Always swift with no deliberation justice  
done purification
