

# Mental Melt Down

Stuck Mojo

Don't step into my cipher unless you can decipher  
Who's the hyper Buddha session budpiper.  
Talking out the side of your neck  
Bleed me kill my dreams  
As I turn the dial in self-denial  
Will they check out the fake smile  
Program direct scan A to Z  
Same ole yeah!  
No adventure to save the venture ouch.  
Who's the pimp trying to turn me out!!

Who's lifted?  
Who's really gifted?  
Is it who you know or what you know??  
Who's lifted?  
Who's really gifted?  
Is it who you know or what you know??

Mentally melting down hear the sound of the same old sound going round.

Ears still burning  
Tounges steady turning mad.  
Scheming suckers double-teaming.  
Like Harlem Heat I reached for the tag switched up now who's coming in last?  
Excedrin number sucker D.J. play play blah blah  
All day no way I'll play.

Who's lifted?  
Who's really gifted?  
Is it who you know or what you know??

Fundamentally you lack the tools  
Pockets too low fools  
Simple.  
Monumentally clique.  
So you Pete Carbon copies can compete or complete.  
Obsolete any flavor that you savor  
Old to new I kind of knew to sell my soul  
Run with a fake ass crew!!!

Who's lifted?  
Who's really gifted?  
Is it who you know or what you know??
