

## Water in a Well

Sturgill Simpson

They say that looks can be deceiving  
and there's been rumors going round  
One look at me's the same thing as believing  
everything you've heard without hearing a sound  
So if my eyes remind you of water in a well  
It's because your heart is the stone  
I know sometimes it can seem like my mind  
belongs to a child that's grown  
But somewhere between you and me I've lost my way  
and I've been trying to get home  
Trying like hell but it's too soon to tell  
If our love has all dried up like water in a well

Lord knows I've tried to move on  
and get you out of my mind  
You find your way in to all of my songs  
Every memory I manage to find  
Someday if I'm standing on some big old stage  
And you're down in the crowd  
Trying to tell your friends I used to know him when  
But in your heart you'll know it ain't true somehow  
Trying like hell but it's too soon to tell  
If our love has all dried up like water in a well

I know you see what it's doing to me  
I'm up here playing my part in this nobody town
