

# Hollow

**Stutterfly**

All this sickness hard to swallow.  
Eats my insides until I'm hollow.  
Indecision, fornication, condemnation, to damnation.  
This world is a breeding ground.  
Take a look at the bleeding ground.  
Adoration, temptation, contemplation, to frustration.  
You'll fall apart. don't drag me down.  
You rule this world with a synthetic crown.  
Kill each other for no reason to go against it, this is treason  
.  
Action, reaction, action, reaction.  
All this sickness forced to swallow.  
Fills me inside, I must follow is this what you said for now?  
Is this what you want to see?  
This is going to piss me off, I will not agree
