

Where Angels Fell

Stutterfly

Close my eyes
Feel shadows swell

Close my eyes
Feel shadows swell
See prayers die
Where angels fell
Close my eyes
Feel shadows swell in me

Hold me in your arms
As the tears flow
Promise me you'll say
I won't go, I won't go, I won't

New sunshine
Darkness is gone (darkness gone)
The new sun shone
The darkness gone
Fear is torn
Light is reborn
New sun shone
The darkness gone in me

Hold me in your arms
As the tears flow
Promise me you'll say
I won't go, I won't go, I won't

Hold me in your arms
As the tears flow
You promise me you'll say
I won't go, I won't go, I won't

Hold me in your arms
As the tears flow
Promise me you'll say
I won't go, I won't go, I won't

(I won't)
