

Black Diamond (Intro)

Styles P

So more or less
Know what I mean? We had to go to Cali
We had to take a trip over to LA
You should work, work on the album
Top 5, dead or alive
And my whole time on the plane
I just like...
After we get the work done or before we get the work done
It's mandatory that I bring my man that fear facts
That's all that was on my mind, we gotta hit fear facts
I don't care if it's one day after the studio
Before we go to the studio
Well, we gotta hit fear facts
Cause we gotta go to the diamonds supply
Cause that's what's hittin' right now
And once we got the fear facts
I've seen brock
They let us go in the back where the inventory is
Just get big brown bags and get right
I was feelin' so fresh I went back the next day
They wouldn't let me spend a dime
They wouldn't let me buy a lunch
They wouldn't let me do nothing
They just said go ahead, go get anything you want again
If this ain't the fuckin' diamond life, what is?
