

# A Man Like Me

Styx

Yeah

Eight days a week with my baby at home  
and you know that she's my tender honey.

Baby I've been good  
but you know it's rough  
when you're spending all of my money.

Ain't no disputin' I'm your man  
you know I want to tell the world.

You're the only woman.  
Show me what love can be.  
You're the only woman  
that understands a man like me.

Rock and roll is a way of life  
but don't you know it brings me down.  
Music is my game but when I'm home  
I treat a lady like she's wearing a crown.

Stranded in the storm 'round Lakewood Way,  
you know who comes to mind.

She's the only woman.  
Show me what love can be.  
She's the only woman  
that understands a man like me.

When I'm away with time to kill  
just sittin' around gettin' high  
thinking about your sweet sweet love  
I wanna jump on a plane and fly.

Sweet little Susie,  
show me what love can be.  
She's the only woman  
that understands a man.  
She understands a man  
(like me)

She's the only woman,  
she's the only woman,  
she's the only woman."
