

Don't Let It End

Styx

I am the modren man
With this guitar in hand
I'll do my best and try
To keep rock and roll alive
...keep it alive
...keep it alive
...keep it alive...

Don't let it end
Don't let it end
Don't let it end
Don't let it end

I'm gonna keep on rockin' all through the night
Shake it, shake it, baby, 'cause it feels so right
Motivate your body, gonna cure your soul
Keep on rockin' 'til I lose control

Don't let it end
I shake to soul music
Don't let it end
I gotta gotta have that music
Don't let it end
Chuck berry
Don't let it end
The platters
Don't let it end
Little richard - ahoo!
Don't let it end
[repeat to fade]
