

Everything All the Time

Styx

There's a crack in the universe
People say that it's getting worse
And there's no place that's safe to hide
Better hope we can hitch a ride

There's a sign in the road ahead
Turn back or you'll end up dead
Hey but I don't believe it's true
'Cause it's the road leading back to you

Kiss my skin, I won't bleed
Close me in, I'll go to seed
Make me ask and I won't need
Everything, all the time

There's a face in a photograph
Tryin' hard to suppress a laugh
Crying out to be torn in half
Should I ask for an autograph?

Kiss my skin, I won't bleed
Close me in, I'll go to seed
Make me ask and I won't need
Everything, all the time
Everything, all the time

Feed my hunger
Ease my pain
Feed my hunger won't you, oh nah nah nah
Won't you ease my pain, whoa nah nah nah nah

Kiss my skin, I won't bleed
Close me in, I'll go to seed
Make me ask and I won't need
Everything, all the time

Everything, all the time

Everything, all the time
All the time
All the time
All the time
