

Hundred Million Miles From Home

Styx

You can't help but be who you are
Your feet on the ground
Your head in the stars
And I can't help but love who I love
You're still on my mind
In the heavens above
And I've got my

Hands on the wheel of my rocket mobile
And I'm a hundred million miles from home
My head's in the stars on a mission to Mars
And I'm a hundred million miles from home
A hundred million miles from home
And I've got to get a message to you

I can't change the things that I've done
The hearts I might have broken
The races I've won
And now it's all about the road that I'm on
My eyes on the mission
My troubles be gone
'Cause I got my

Hands on the wheel of my rocket mobile
And I'm a hundred million miles from home
My head's in the stars on a mission to Mars
And I'm a hundred million miles from home
A hundred million miles from home
And I've got to get a message to you

Now there's nothing but starlight glowing
And this pain in my heart keeps growing
Sometimes I feel like a fool
Your gravitational pull
Is gonna tear me apart
Hey, hey, yeah

You can't help, but be who you are
Even a hundred million miles from home
I can't remember what I wanted to say
Now I'm a hundred million miles from home

And I got my
Hands on the wheel of my rocket mobile
And I'm a hundred million miles from home
My head's in the stars on a mission to Mars
And I'm a hundred million miles from home
A hundred million miles from home
And I've got to get a message to you
I've got to get a message
I've got to get a message to you
I've got to get a message to you
