

I'm Gonna Make You Feel It

Styx

Every day I get the feeling
When you move on down the street
Wondering when I'll be your lover
And you'll make my dream complete

The way you walk is so inviting
That I quiver and I shake
The way you move it makes me wonder
How much more can I take

I'm gonna make you feel it
Basically that's what I say
I'm gonna make you feel it
Cause you want it just that way

Every time that we're together
My head starts to rock and roll
I get this strange electric feeling
That I simply can't control

I'm gonna make you feel it
Basically that's what I say
I'm gonna make you feel it
Cause you want it just that way

I'm gonna make you feel it
I'm gonna make you feel it
I'm gonna make you feel it
