My love, my, my love  
My love, my, my love  
My love, my, my love  
My love, my, my love

My love, my, my love  
My love, my, my love  
My love, my, my love  
My love, my, my love

Oh my love, your love is like a flame I'd never blow  
A song that I've always known  
Higher than I've ever been before, my love

Oh my love, your love is like a dream can be awake  
I'm taking a leap of faith  
I took a turn but I don't want away, my love

And when we're close, you know I feel passion  
In the eye of your fatal attraction  
My main attraction, a chain reaction  
And when we touch, we beat, it's automatic  
I've become obsessive, informatic  
Systematic, gotta have it, my love

And when we're close, you know I feel passion  
In the eye of your fatal attraction  
My main attraction, a chain reaction  
And when we touch, we beat, it's automatic  
I've become obsessive, informatic  
Systematic, gotta have it

And when we're close, you know I feel passion  
In the eye of your fatal attraction  
My main attraction, a chain reaction  
And when we touch, we beat, it's automatic  
I've become obsessive, informatic  
Systematic, gotta have it, my love

And when we're close, you know I feel passion  
In the eye of your fatal attraction  
My main attraction, a chain reaction  
And when we touch, we beat, it's automatic  
I've become obsessive, informatic  
Systematic, gotta have it

My love, my, my love  
My love, my, my love  
My love, my, my love  
And when we're close I feel with you

Oh my love, you don't know what you do or mean to me  
Your presence is a fantasy  
It's never nothing short of ecstasy, my love

Oh my love, it's a feeling that can't be described  
Oh my love, shared between only you and I

My love, too much seldom seems to be enough

And when we're close, you know I feel passion  
In the eye of your fatal attraction  
My main attraction, a chain reaction  
And when we touch, we beat, it's automatic  
I've become obsessive, informatic  
Systematic, gotta have it, my love

And when we're close, you know I feel passion  
In the eye of your fatal attraction  
My main attraction, a chain reaction  
And when we touch, we beat, it's automatic  
I've become obsessive, informatic  
Systematic, gotta have it

My love, my, my love  
My love, my, my love  
My love, my, my love  
My love, my, my love

And when we're close I feel with you
