

Turn It Around

Sub Focus

I don't know what they're telling you
But I know we can turn this around
I know I've hurt you, and I've not been true
But I know I can turn this around

A song of desperation, but I'm not letting go
I'll be with you in the hour, I'll be with you
They said we were too young, to keep our love so strong
You said you want devotion, look no further

I don't know what they're telling you
But I know we can turn this around
I know I've hurt you, and I've not been true
But I know I can turn this around

A song of desperation, but I'm not letting go
I'll be with you in the hour, I'll be with you
They said we were too young, to keep our love so strong
You said you want devotion, look no further

Keep our love so (12x)

It's inside
It's all around you
I'm going to put these arms
All around you
