

# Dying World

## Subhumans

There's a hole at the bottom of the earth  
Where the blood pours out at the end of the day  
When the usual amount of people have died  
Sit back and watch the death and decay

It's a dying world

When you're living in a dying world  
Panicking becomes the everyday thing  
Buy up the food, the power and the guns  
Get used to the threat of the final fling

It's a dying world

There's a hole in your mind where nothing exists  
Except fear and loathing of the strange but true  
Facts that defy your inner intelligence  
Like man kills himself for something to do  
It's a dying world
